September 2011

Dear Teacher,

Welcome back to a new school year! Now is the time to plan for an outdoor field trip. Let Sheldrake's Environmental Educators help you with your curriculum objectives. From water cycles and aquatic and terrestrial ecosystems to life cycles and adaptations of plants and animals, we will provide an outdoor experience that will bring science lessons to life in a real and hands-on way!

Our staff will gear each program to the curriculum and grade level of your students and greatly enrich the learning experience by providing a classroom pre-trip before each field trip. Sheldrake is fortunate to have access to an abundance of natural habitats, including shore, forest, field and wetlands. Complete details are available in the School Program Brochure.

To book a trip please contact Amy Bisignani, Scheduling Coordinator, at 914-834-1443, or email her at scheduling@sheldrakecenter.org. For program content or questions, please contact Mary Davis at progdirector@sheldrakecenter.org.

We hope that you will take advantage of these resources and the expertise that Sheldrake has to offer and we look forward to working with you.

Mary B. Davis
Director of Environmental Programs
