#### GETTING THE SHELDRAKE GARDEN READY FOR SPRING

The Garden Group invites you to join us to "wake up" the Vegetable and Native Plant Gardens on Saturday, April 5 and Sunday, April 6 or - rain dates - Saturday, April 12 and Sunday, April 13. Saturday sessions are scheduled for 10 am to 12 noon; Sunday sessions are scheduled from 1 to 3 pm. (Call Sheldrake Environmental Center at 834-1443 on preceding weekdays to get further information and check for time-changes). Bring work-gloves; all other supplies will be provided. Children under age 8 will need close adult supervision.

Produce from the Vegetable Garden is given, free of charge, to the Larchmont/Mamaroneck Food Pantry and our neighbors at several community residences. The Native Plant Garden shows plants native to Westchester County and plants listed as endangered in the state of New York. Volunteers are welcome from April through October. Please leave your name and telephone number or email address with Amy at Sheldrake if you would like to help.
